

## U. S. THREATENS MILITARY OCCUPATION

State Department Notifies Cuba That Army Must Leave Politics Alone.

ATLANTIC FLEET READY TO ENVELOP ISLAND

Unexpected American Action Creates Intense Excitement at Cuban Capital.

Washington, Jan. 17.—The state department has served notice on President Gomez that the United States will intervene in Cuba if further attempts are made by the veteran organization to nullify the law prohibiting the interference of the military in political affairs in Cuba.

The attitude of the United States is shown in the following note presented to the Cuban government:

"The situation in Cuba as now reported causes grave concern to the government of the United States.

"That the laws intended to safeguard free republican government shall be enforced and not defied is obviously essential to the maintenance of the law, order and stability indispensable to the status of the republic of Cuba, in the continued well being of which the United States has always evinced and cannot escape a vital interest.

"The president of the United States therefore looks to the president and government of Cuba to prevent the threatened situation, which would compel the government of the United States, much against its desires, to consider what measures it must take in pursuance of the obligations of its relations to Cuba."

The state department has concluded that the time has come to serve warning that for the second "and perhaps the last" time the United States is prepared to intervene in Cuba if necessary.

The officials here entertain no doubt whatever as to the result of this note of warning. President Gomez will enforce his decree against the participation of the military in politics. If not, it may be expected that within a short time the American flag again will be hoisted over the government house in Havana.

Atlantic Fleet in Readiness.

The general staff long has had plans prepared for just such a maneuver as this. Practically the whole Atlantic fleet, which is now based on Guantanamo on the south side of the island, would spread out and envelop Cuba so completely that there could not be a thought of successful armed resistance.

The notification of the American government was served upon President Gomez through American Minister Beaupre at Havana. Senator Martin-Rivero, Cuban minister to the United States, was unapprised of the action except through the press and declined to comment upon it. He attended the diplomatic dinner at the White House, where he met Secretary of State Knox, as well as President Taft, but before leaving the legation he said he did not expect to discuss the matter even informally with either.

It was on reports of American Minister Beaupre that the note was based. Minister Beaupre reported from Havana that in defiance of a decree issued by President Gomez forbidding officers of the army and rural guard to participate in politics, which also is prohibited by military law, many army officers and rurales attended a meeting Sunday night at the National Council of Veterans, an organization of veterans of the Cuban war for independence.

The veterans have been active in the past three months in attempting to have displaced from the civil service persons who sympathized with the Spanish cause in the rebellion.

It is evident to the state department that President Gomez was practically powerless to resist the movements unless he receives substantial support from the outside.

Noted English Editor Dead.

Florence, Italy, Jan. 17.—Henry Labouchere, the editor of the London Truth, died at his villa here. Until a few years ago Henry Labouchere was one of the most prominent independent politicians in the British Isles. He was a member of parliament for about half a century.

Offers Suffrage Amendment.

Washington, Jan. 17.—A constitutional amendment for woman's suffrage was introduced by Representative Berger of Wisconsin. A petition now is being circulated by the Socialist party and Representative Berger declared 1,000,000 would sign in favor of votes for women.

Girl Dies in Hotel Fire.

Two Harbors, Minn., Jan. 17.—Amy Anderson, a domestic, lost her life in a fire that destroyed the Clifton hotel here. Others had narrow escapes. The loss is estimated at \$8,000, partly insured.

### BASED ON ERRONEOUS VIEW

President Gomez' Opinion of Threatened Intervention.

Havana, Jan. 17.—President Gomez, seen at the palace, said: "I have only recently received Secretary Knox's note through the American minister, Mr. Beaupre, and have not yet made a reply. I am convinced that no occasion has yet arisen for any intimation of intervention. I believe that the Washington government's attitude is based on an erroneous view of conditions in Cuba, arising from distorted and greatly exaggerated reports from Havana."

When it was suggested that the action of the administration at Washington was probably based on reports from Minister Beaupre the president replied that he did not have the honor of knowing the character of the minister's reports.

### GENERAL NUNEZ IS DEFIANT

Says Cubans Will Fight Against Intervention.

Havana, Jan. 17.—General Emilio Nunez, former governor of the province of Havana and president of the veterans' association, said: "I absolutely refuse to believe the report that the United States contemplates intervention because the veterans are reported to have assumed an attitude of defiance to the Cuban government and because army officers attended our meetings contrary to the military regulations and presidential orders. We have broken no laws nor

PRESIDENT GOMEZ.

have we placed ourselves as a body in hostility to the government.

"If the United States intervenes under present conditions, when no necessity exists, to avoid disorder or restore order, then Cuba would be stripped of every vestige of independence. If this condition is forced on us the United States will have to fight us and that struggle for independence will not cease while a Cuban is left alive to defend the fatherland."

### HAVANA GREATLY EXCITED

Threatened Intervention Sole Topic of Discussion in Clubs and Cafes.

Havana, Jan. 17.—The news of threatened intervention by the United States in Cuban affairs, which was published in the Havana papers, caused intense excitement in the clubs and cafes, while in all places of public gathering it was the absorbing topic of discussion. Astonishment and resentment against American interference were mingled with very general incredulity.

Later, as the news was fully confirmed, the impression became general that the suggestion of intervention probably would have a good effect in calming the existing veteran agitation and in quieting political excitement.

### JUDGE QUINN DIES IN WEST

Sat at Hearing of Younger Brothers at Northfield.

Tacoma, Wash., Jan. 17.—Judge John B. Quinn died of heart failure at Aberdeen, Wash., where he moved three years ago. He was born in Ohio sixty-two years ago.

Shortly after the Civil war Judge Quinn moved to Faribault, Minn., where he studied law and began practicing. He held various city and county offices.

It is stated he was the police judge in Northfield at the time of the raid of the Younger brothers on the Northfield bank and bound the prisoners over for trial before a higher court.

About twelve years ago Quinn and family moved from Minnesota to Seattle, where he practiced law before removing to Aberdeen.

### MAY QUIT OPERA IN LONDON

Oscar Hammerstein Sees Gloomy Future for Enterprise.

London, Jan. 17.—Oscar Hammerstein, the impresario, expresses a gloomy view as to the future of his opera enterprise in London on account of the failure of subscriptions for boxes. In an interview published in the Evening News he says:

"Guarantee me sufficient subscriptions and I will produce grand opera fifty-two weeks in the year. I am not here to revolutionize London or for money making; but without these guarantees I am afraid we are now at the beginning of the end so far as grand opera in this building is concerned."

### SUPPORT INJURING WILSON'S CHANCES

Harper's Weekly Quits Booming New Jersey Governor.

New York, Jan. 17.—The current number of Harper's Weekly contains the following editorial announcement: "To our readers: We make the following reply to many inquiries from readers of Harper's Weekly:

"The name of Woodrow Wilson as our candidate for president was taken down from the head of these columns in response to a statement made to us directly by Governor Wilson to the effect that our support was affecting his candidacy injuriously.

"The only course left open to us in simple fairness to Mr. Wilson, no less than in consideration of our own self-respect, was to cease to advocate his nomination.

"We make this explanation with great reluctance and the deepest regret. But we cannot escape the conclusion that the very considerable number of our readers who have cooperated earnestly and loyally in advancing a movement which was inaugurated solely in the hope of rendering a high public service are clearly entitled to this information."

### TEXTILE STRIKE RIOTS END

State Arbitration Board May Settle Controversy.

Lawrence, Mass., Jan. 17.—With a return of quiet conditions in the mill district of the city through the presence of eight companies of militia state and city officials busied themselves to bring about a speedy settlement of the difficulties between the 15,000 striking textile workers and the mill owners. The strikers, through their executive committee, agreed to meet the mill agents before the state board of arbitration and conciliation to discuss the points at issue.

Although John J. Etter of New York, directing head of the strike, declared his belief that the strikers could gain nothing by arbitration other members of the executive committee favored the proposition and Etter agreed to it.

### ASK CANTEEN FOR HUSBANDS

Soldiers' Wives and Mothers Sign Petition to Congress.

Washington, Jan. 17.—A petition urging the restoration of the army canteen was presented to congress by Representative Barthold of Missouri. It bore the signature of more than 300 physicians and 326 mothers and wives of army men. It contended that "the moral and physical health of the soldiers requires the re-establishment of the canteen."

### Cremated in Private Car.

St. Louis, Jan. 17.—Guy L. Stewart, industrial and agricultural agent of the Cotton Belt railroad, with headquarters in St. Louis, was burned to death in his private car in a wreck in which trains of three different roads collided at Kelso, Mo., 140 miles south of St. Louis.

### Has Six National Guard Armories.

New Mexico owns six handsome national guard armories—at Santa Fe, Las Vegas, Las Cruces, Roswell, Silver City and Albuquerque. During 1911 a large annex was built to the state's handsome capitol building.

## SENATORS FROM NEW STATES

One Seat From New Mexico In Doubt.

### SENATE POLITICS UNCHANGED.

Two Democrats From Arizona Offset by Two Republicans From New Mexico—One Republican and Two Democrats In House—Men Who Report Congressional Speeches.

By ARTHUR W. DUNN.

Washington, Jan. 17.—[Special.]—While it is known now who will be the senators from Arizona and there seems no doubt about who will be one of the senators from New Mexico, the other is in doubt, and it will take a caucus of the Republican members of the legislature to settle the contest.

Mark A. Smith and Henry F. Ashurst, both Democrats, will be senators from Arizona. William H. Andrews, Republican, will be one of the senators from New Mexico. The other candidates are former Delegate Thomas B. Catron, former Governor William J. Mills, Judge A. B. Fall and Charles Springer.

George Curry, Republican, and Harvey B. Ferguson, Democrat, are the representatives in congress from New Mexico, and Carl Hayden, Democrat, will be the congressman from Arizona. Curry was formerly governor, and Ferguson was at one time delegate from New Mexico.

Delegates and Governors. It is no doubt natural, but it is nevertheless an interesting fact that former delegates and governors of territories generally secure the first plums in the way of senatorships and representatives in the house when new states are admitted. Such has been the case with every state admitted within my knowledge, and it follows in regard to the states soon to be admitted. Mark Smith began representing Arizona as a delegate more than twenty-five years ago and has been delegate off and on ever since. Andrews has been delegate from New Mexico for several years.

### Rapid Shorthand Men.

Theodore F. Shney, the veteran senate stenographer, has long been known as dean of the shorthand men who record the daily utterances of senate debate. Fred Irland holds that title on the house side. Irland has to be rapid on his feet as well as with his fingers, for the acoustics of the larger chamber are not good, and he sometimes has to be able to write on the run while getting within earshot of some member who has arisen in a far corner of the chamber.

The senate reporters seldom are obliged to report the proceedings without the use of a desk, but in the house the general practice is to hold book in one hand and pen in the other and write standing up. Five minutes constitute a "take" of the floor and twenty-five more to read the notes into the phonograph in the reporters' room. One "take" usually constitutes about a column in the Congressional Record.

### Ex-Slaves in the Capitol.

Two colored men who were slaves in the old days now occupy positions in the capitol. One of them, J. A. Lewis, has been in the service of the supreme court for more than half a century, his tenure of position being exceeded only by that of the clerk of the court. Lewis, whose age is nearly ninety years, attends to the robing of the justices.

The other former slave, who is usually styled Jeff Davis Jones, is a messenger in the senate stationery room. He was the body servant of Jefferson Davis, president of the Southern Confederacy, and is said to be the custodian of the seal of the "lost cause," which was entrusted to him by his owner. Many attempts have been made to secure its surrender, but Jones has steadfastly refused all offers, declaring it to be a sacred trust from his master.

### Historic Bell.

In the belfry of All Souls' church, which is the place of worship of President Taft, hangs the old bell that sounded the alarm of the approach of the British when Paul Revere made his famous ride from the Old South church in Boston. It was brought to Washington early in the nineteenth century. It is the custom to toll this bell upon the passing away of great men in Washington.

Funeral services for the late Rear Admiral Robley D. Evans were held from this church, and again the "Paul Revere bell," as it is called, was rung as the solemn procession passed.

### Watching Murray Crane.

Few senators are so frequently at the White House as Senator Crane of Massachusetts, and yet no one seems to know what takes him there so much. Naturally the first guess is politics, but the question arises, "Why so often, even for politics?" "Crane," said a Massachusetts man, "likes to have the impression prevail that he is the man close to the man in power no matter who he may be. He likes to have the talk go around that he is running the politics of the administration or at least nothing is done without consulting him."

Few men enjoy the political game much better than Crane, and he is doing something in politics all the time.

### Masks in Battle.

### FOLA LA FOLLETTE.

Senator's Daughter Speaks on Insurgency in the Drama.

### FOLA LA FOLLETTE SPEAKS

Calls "Insurgency in Drama" Same as That in Politics.

Chicago, Jan. 17.—Fola La Follette, prominent actress and daughter of United States Senator Robert M. La Follette of Wisconsin, delivered an address on "Insurgency in the Drama" to a theater filled with members of the Chicago Drama league here.

In her address Miss La Follette attacked the present "star system" and regretted the existence of the combined booking and producing manager. "Insurgency in the drama is closely allied to insurgency in politics," said Miss La Follette, "for the actor like the politician works before the people. The drama is a great democracy and every box office is a ballot box. Each time you purchase a theater ticket you cast a vote for what the future drama will be. If you patronize a vulgar play you perpetuate another vulgar play for next year."

## FOUR TRAINMEN DIE IN COLLISION

Passenger Train and String of Empty Cars Come Together.

Louisville, Jan. 17.—Four trainmen are dead and two perhaps fatally injured as the result of a head on collision at Long Run, eighteen miles east of here, between an inbound Louisville and Nashville passenger train and a Chesapeake and Ohio train of empty cars. Practically all the passengers on the Louisville and Nashville train were more or less injured.

Both engines exploded, according to passengers, bits of the wreckage falling on the roofs of the coaches, terrorizing the passengers, who had been thrown into masses in the forward ends of the cars. Passengers immediately set to work helping the injured from the coaches and went forward to assist in extricating the Chesapeake and Ohio conductor and his brakeman, caught in the wreckage when the combination coach in which they rode telephoned upon the shattered engines.

### MINISTER PLACED IN JAIL

Rev. McFarland Held in Connection With Girl's Death.

Greenville, Tenn., Jan. 17.—Rev. W. D. McFarland, wanted in Pittsburg in connection with the death of Miss Elsie Dadds Coe, is in jail here and protests his innocence. The preacher-teacher is held without bail. He said he was anxious to return to Pittsburg to have the charge investigated thoroughly and hopes there will be no delay in the coming of the Pittsburg officer reported to be on the way here. When arrested at Cedar Creek, twelve miles from here, where he is conducting a school, McFarland said he was not surprised, as he had just read in a newspaper that he was wanted.

### FIVE LITTLE ONES PERISH

Flames Consume Farmhouse Near Prentice, Wis.

Prentice, Wis., Jan. 17.—John Deering's house was destroyed by fire burning to death his five children, two boys and three girls, ranging in age from one to twelve years.

Mr. Deering is a farmer living two miles east of here. His wife and oldest son were at the barn milking and when they came out of the barn the house was aflame and the roof falling in.

The father was at work in the woods fifteen miles from home. The body of the seven-year-old daughter was found in the ruins at the front of the house. It is supposed that she attempted to take a lamp from a shelf and upset it.

### Gas Kills Two at Superior.

Superior, Wis., Jan. 17.—Mrs. Alice Smith and daughter Edith were found dead in their home here, having been asphyxiated by coal gas escaping from a stove.

## FILE MINNESOTA RATE CASE BRIEF

COMMEND WORK OF ROOSEVELT

North Dakota Progressives Also Endorse La Follette.

### TO SUPPORT WISCONSIN MAN

Fargo Meeting Adopts Resolution Favoring Senator La Follette as Republican Candidate for President—Another Resolution Commends Work of Colonel Roosevelt in Efforts to Secure Reforms.

Fargo, N. D., Jan. 17.—At the state meeting of North Dakota progressives here resolutions were adopted pledging the support of the organization to Senator Robert M. La Follette for the presidential nomination. For a while it looked as though there might be a split in the ranks of the progressives, as some were in favor of giving La Follette and Roosevelt equal endorsement for the nomination.

The resolution endorsing La Follette was passed, however, by the convention and a resolution was also passed commending the work of Roosevelt in his efforts to secure reforms and progressive legislation while president.

Although the question of what to do with the possible candidacy of Theodore Roosevelt did not enter largely into the official deliberations of the progressives it formed a prominent part of the discussions in the lobbies and took up much of the time of the resolution committee.

The committee finally compromised by bringing in a report which pledged the support of the league to La Follette, but praised Roosevelt highly for his work in behalf of reform and progressive legislation while he was president.

The bulk of the discussion on the floor was taken up with a fight over whether they would endorse candidates for state offices, for delegates to the national convention and for national committeemen. After a discussion lasting several hours a compromise was effected and James Buchanan of Buchanan was endorsed as the progressive candidate for governor and former Congressman Tom Marshall of Oakes was endorsed for national committeeman. Other endorsements were left to the executive committee.

A resolution not proposed by the committee was adopted pledging the progressives to the initiative, referendum and recall and to a constitutional amendment providing for sessions of the legislature every four years.

### White House Dinner to Diplomats.

Washington, Jan. 17.—Ambassadors and ministers of the foreign countries represented in Washington were entertained at dinner at the White House by President and Mrs. Taft. There were present nine ambassadors, twenty-three ministers and six charge d'affaires as well as Secretary of State Knox and members of the senate and house committee on foreign relations.

Attorneys Lay Large Document Before Supreme Court.

### ORAL ARGUMENTS TO FOLLOW

Case Will Come Up Along With Several Similar Ones Feb. 19—Briefs Argue That State Rates Would Not Be Confiscatory if Income Was Figured on Money Invested in Railway Properties.

Washington, Jan. 17.—Probably the largest brief ever filed with the supreme court of the United States was required by former Attorney General Simpson of Minnesota and his associates in telling the court in printed form their sides the famous Minnesota rate cases.

The case will come up for oral argument along with rate cases from half a dozen other states on Feb. 19.

Associated with Attorney General Simpson were Lyndon A. Smith, now attorney general; Edward T. Young and Thomas D. O'Brien.

It was contended that strangulation of the state's power to regulate intrastate business would not extend the federal power to cover intrastate commerce and that if the decision of the Minnesota federal court annulling Minnesota state rates stands intrastate commerce must go unregulated.

It was argued that the state rates would not be confiscatory of the railroad property if the income was figured on the property the railroads had contributed to the public service or in the money invested therein or what the facilities were worth.

Figuring on the basis of what it would cost to acquire the rights of way and build new roads was denounced as unfair. The old rates enforced by the railroads would be confiscatory if figured on such an improper basis, it was argued.

### PACKERS SHOW PROFITS LOW

One-eighth Cent a Pound Net Made, According to Books.

Chicago, Jan. 17.—In an effort to refute the charges made by the government the defense in the packers trial submitted figures from the books of Morris & Co., showing that in 1907, 1908, 1909 and 1910, 1,156,622 cattle were killed at the company's Chicago plant, on which the total net profits realized by the sale of fresh meat and by-products was \$1,008,215.76 or 87 cents a head.

The net profit on fresh meat in this period was one-eighth cent a pound, according to the books of the company.

This information was brought out in the cross-examination of Henry A. Timmons, chief accountant of Morris & Co., who was on the witness stand.

### LORIMER HOLDING HIS OWN

Cross-Examination Fails to Develop Any Sensations.

Washington, Jan. 17.—A day's cross-examination of Senator Lorimer of Illinois before the senate investigating committee failed to develop any sensations. Apparently it had not tangled his story and certainly it did not rattle his temper, for he maintained his composure throughout.

Most of the cross-examination was directed to Mr. Lorimer's recital of political conditions in Illinois when the legislature was electing a senator in 1909, the personal associations of Democrats with Republicans and the subsequent reasons why he believed the Democrats voted for him.

### POSTAL PROFIT \$21,000,000

Germany Makes Report on System, Including Telegraph Lines.

Berlin, Jan. 17.—The German postal system earned in round figures \$21,000,000 over and above the cost of administration during the year 1911, according to the imperial budget figures just made public. This includes also the "profits" of the German telegraph system, government owned, which is under the administration of the post-office department. The total receipts of the German imperial posts and telegraphs, exclusive of Bavaria and Wurttemberg, which have their own systems, aggregated about \$177,000,000.

### Flames Sweep Japanese Town.

Osaka, Japan, Jan. 17.—A series of fires swept unchecked across the southern half of this city fanned by a strong wind. The conflagration was not under control until, according to official figures, 5,268 buildings had been destroyed and 30,000 persons rendered homeless. During the first four hours the flames consumed more than 1,300 houses.

A. L. Hoffman went to Chicago this morning where he will attend the national special convention of the Modern Woodmen of America, which fraternal society meets to take up the rate question. This readjustment of insurance rates is bound to call forth a lot of discussion. It is said some delegates favor putting the society on as high a rate system as the old line companies. Others want a rate which will be a compromise between a high and low rate. Mr. Hoffman has been prominently identified with woodcraft in this state, having for years been the state consul and at present is a state delegate to the national conventions.

The Brainerd Ice Co. has commenced cutting ice on Rice lake. On Monday 12 teams and on Tuesday 18 or 20 teams were engaged in hauling the ice to the companies' ice houses. Applicants for hauling, to the number of 36, have been supplied with numbers and many of these, being farmers, have dreaded cold weather and failed to put in an appearance at the opening of the season. St. Hall is managing the work on the ice. J. W. Boyd is running the engine, Chas. Hoffman is checking at the platform receiving station and C. H. Paine exercises general supervision. The steam plant operates the endless chain which hauls the cakes from the water to the loading platform.

### STOMACHS FEEL FINE

A Little Diapiesin Regulates Your Disordered Stomach and Ends Indigestion in Five Minutes

You can eat anything your stomach craves without fear of indigestion or dyspepsia, or that your food will ferment or sour on your stomach, if you will take a little Diapiesin occasionally.

Your meals will taste good and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes belching, dizziness, a feeling of fullness after eating, nausea, indigestion (like a lump of lead in stomach) biliousness, heartburn, water brash, pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapiesin really does all the work of a healthy stomach. It digests your meals when your stomach can't. A single dose will digest all the food you eat and leave nothing to ferment or sour and upset the stomach.

Get a large 50-cent case of Pape's Diapiesin from your druggist and start taking now, and in a little while you will actually brag about your healthy, strong stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

Should you at this moment be suffering from indigestion or any stomach disorder, you can surely get relief within five minutes.

### POLICE OF BERLIN.

Each One Is a Sort of Czar on His Own Limited Beat.

EVERY PERSON IS WATCHED.

Where a Man Works, How He Amuses Himself and the Way He Behaves It Is the Czar's Business to Know. The Civil Service System.

"When you arrive at a railway station in Berlin," said a professional man who spent a year in Berlin, "you are not surrounded by a clamorous crowd of cab drivers, some of whom a stranger would be foolish to trust. You tell a policeman what you want—whether a cab or a porter—and he gives you a number. When you emerge from the station a uniformed governmental employee, either cab driver or porter, stands at attention and salutes you in a military manner. He has been ordered for you by the policeman inside, and when he presents his number, corresponding to the one the policeman gave you, you can trust him to take you or your luggage wherever it is to go. The government is responsible for the safe arrival of yourself and your luggage at hotel or other destination. If the porter should run away with your belongings the government would reimburse you.

"The police system is wonderful. The officers carry no revolvers or clubs, only swords. Each one has only a small beat to cover—a couple of blocks or so—that he has time to be the monitor of the moral conduct of every person in his district. He knows exactly what each person is doing, where he is working, how he is spending his leisure time and whether he is behaving himself. There is very little crime, and the police courts have little business.

"If you commit an offense you are not dragged off to a police station. Instead, your name and address are taken by the officer in the district, and the next day a letter informs you that you have been fined an amount in keeping with the character of your offense. You are told that you either can send the money by messenger or appear at the prefect's office for trial at a certain time. It doesn't pay to give a policeman a wrong address either, because the system is so perfect that they will find you anyway and fine you more.

"The policemen are instructed to prevent infractions of the law, not to wait for persons to get into trouble and then arrest them. Each policeman has such a small district to cover that you can find one whenever you want one. He sees that his district is kept clean, that each house in it is sanitary and that each resident gets fair treatment from his neighbor. Disputes are settled with no thought of appeal before they ever get to the police station.

"Soon after I arrived I was on my way to the university one morning and saw a policeman at a cab stand examining the hoofs and backs of the horses, the harness and the cushions and wheels of the cabs.

"What are you doing?" I asked him politely.

"As a representative of my government," he replied, "I am inspecting to see that the passengers of these cabs men are assured a safe journey with them. The government is responsible, you know, and it is my duty to see that all dangers and possibilities of discomforts are eliminated."

"His answer was given in a most courteous manner.

"There are no paupers in Germany. Everybody pays as he goes. You can see the result in the independent manner of even the street sweeper. He knows he shall be provided for in case he encounters adversity.

"For instance, suppose a lamplighter or a bootblack becomes ill or suffers an accident. By the way, the boot-blacks of Berlin do a thriving business because not a man, from street sweeper up to banker, would think of appearing on the street of a morning without having his shoes shined. If such a lowly worker becomes disabled the government association of his district gives him a certificate to any physician for whom he may have a preference. It is good for two weeks, and the physician is assured, through the association, that the government will pay him. If more than two weeks' medical attention is required the association issues a new certificate. The disabled worker pays for his medicines in the same way. The physician gives him a certificate on the druggist, and the latter is not allowed to charge more than the customer's station in life justifies.

"A ride on the governmental railways assures you absolute comfort and safety. They laugh at our 'spreading rail' and 'washout' accidents over here. The construction of German railways won't permit the rails to spread. And after a train passes over a certain stretch of track a walker follows along behind to see that all is safe before another train is allowed to use it.

"There is no political graft. The moment a man goes to work for the government he is disfranchised. He is under civil service, and he has a life time job if he gives good service, but the others do the voting.

"I met an American lawyer who resides there and rather marveled at his ability to make a living. I told him about it.

"I make a good living," he explained, "by telling Americans how to keep out of trouble. And I tell them if they take their cases to court they must expect exact justice. There is no chance for political influence and pull in the courts, as in America."—Kansas City Star.

### FLAGS THAT HAVE BEEN CAPTURED BY THE NAVY.

Movement by Navy League For Their Repair, Preservation and Exhibit.

A movement has been initiated by the Navy League of the United States for the repair, preservation and exhibit of flags taken in or after battle by the United States navy. A bill to this end has been introduced in congress, which has the support of the secretary of the navy.

These flags, numbering about 150, are now stored at the United States Naval academy at Annapolis. Unless prompt measures for their repair and preservation are taken, it is said, many of these historical relics will be lost to posterity. Moths, lack of proper care and other causes have combined to produce their rapid disintegration and decay. It is proposed to back each flag with a mesh of fine linen, a method said to be a certain preservative.

The flags in the navy collection are of considerable historical interest. The collection includes the only English royal standard ever captured and held by any nation. This was taken by Commodore Chauncey in 1813. Others are the ensign of the insurgents captured by the Guerriere, the Java, the Boxer, the Macedonian and the Frolic, all taken during the war of 1812. Other flags are Perry's flag hoisted on his flagship, the Lawrence, bearing Lawrence's words, "Don't give up the ship," a Mexican ensign, the United States ensign hoisted in Japan by Commodore Perry in 1853 and a number of Spanish flags captured in 1898, besides a large number of others of less familiar incident.

### "Daddy."

"Dad" is the English of "papa." "Dad" and "daddy" were well known in this country in the sixteenth century. "Papa" did not come in, borrowed from abroad, until the seventeenth century was well advanced. Florio at the end of the former century defined the Italian "pappa" as "the first word that children are taught to call their father, as ours say dad, daddie or bab." "Dad" seems to be the commoner to mankind of the two. Nausicaa in the "Odyssey" calls her father "pappa phile" (dear papa), but Greek had "tata" also, and Welsh has "tat" and Irish "dadd."—London Chronicle.

## SANTI GETS A \$500 VERDICT

Shopman Wins His Personal Injury Suit Against Northern Pacific Railway

### HE WAS HURT AT THE SHOPS

Case of Zierke & Welch vs C. W. Koering Regarding Cattle on Trial Today

In the personal injury case of Matt Santi vs the Northern Pacific railway Matt Santi and Mrs. Santi were on the stand late Tuesday afternoon. Mike Setula acted as interpreter. The plaintiff then rested.

The defendant's case was opened to the jury by George Hoke, the Minneapolis attorney of the railway company. The defense introduced as witnesses Dr. A. W. Ide, Anton Gilbertson, Erick Norquist, Henry Weidewitsch, N. W. Olson and Harry Bentley. The defendant then rested. A motion by the defendant to dismiss the case was denied by Judge W. S. McClenahan.

The case was argued and the jury retired at 5:40 P. M. in charge of Officer Winters.

Wednesday morning the jury brought in a sealed verdict wherein they found for the plaintiff and assessed Matt Santi's damages at \$500.

The case of Zierke & Welch vs C. W. Koering was then taken up. Zierke & Welch are suing C. W. Koering the complaint alleging that he unlawfully detained three steers about three years of age valued at \$180 and claiming that they suffered damages to the extent of \$100.

The jury chosen consists of E. Ramberg, A. M. Wallace, H. V. Flansburg, J. J. Tucker, Joseph H. Northrup, Fred J. Small, Jesse Britton, Joseph Britton and W. B. Hill.

At the morning session C. W. Koering and T. E. Welch were on the witness stand.

The Aloha Iron Mining Co., is Operating a Drill in Section 27 Southeast of Brainerd

The Aloha Mining Co., in which many Minneapolis people are interested and of which D. R. Peck, of Minneapolis is the manager, is operating a drill in section twenty-seven southwest of Brainerd. They have been working there steadily all winter and although Mr. Peck refused to give out any information as to the results attained it is believed their continuous presence on the section indicates that good finds are being made. Mr. Peck left for his home in the Twin Cities this afternoon.

### FLOYD BROWN'S STORE ROBBED

At Bemidji, Thieves Breaking Open Cash Till, and Also Abstracting Goods of Value

Bemidji Pioneer: Robbers broke into the Floyd Brown bazaar store last night and smashed open the cash register, taking a small amount of loose change, after which they gathered \$50 worth of high grade dishes and other goods and made their escape and up to late today had not been captured. After helping themselves to the money and dishes the robbers attacked the candy counters and took away a load of the confections.

### RAN AWAY FROM HOME

Two Staples Lads, Disliking School, Arrive in Brainerd on a Freight and Are Retaken

Alien Hotchkiss, aged 13 and Dewey Woolms, also 13 years old, having had some difficulties in school at their home at Staples, concluded to run away and "beat" their way from Staples to Brainerd on a freight train.

When they were missed at home telegraphic messages were sent around the country to keep a lookout for the travelers and the officers in Brainerd found the wanderers and detained them until S. E. Hotchkiss, father of one of them, arrived and took them both home on last night's midnight train.

Their sojourn in Brainerd caused a yearning for the buckwheat cakes which mother makes and the hot coffee and syrup that goes with it and the two little fellows were glad to go home and back to school with its fractions and decimals. Mr. Hotchkiss was thankful for the good manner in which the boys were detained by the local police and so quickly taken in charge of.

## PAY INHERITANCE TAXES IN COUNTY

Two Estates, Armstrong and Harrison, Have Paid Taxes Under the Old Law

### PARKER ESTATE TO PAY TAX

Estate of Late C. N. Parker Comes Under the Provisions of the Law of 1911

The estates of the late Adam Armstrong and T. W. Harrison of Topeka, Kansas, paid inheritance taxes amounting to \$212.85 under the old state law of 1905, which all went to the state.

This law has now been amended and is very complicated insofar as it grades various exemptions and the amounts of taxes to be paid by devisees. It is under these laws of 1911 that the C. N. Parker estate will pay its inheritance taxes to the state, of which ten per cent goes to the county revenue fund.

### BEAT HIS BOARD BILL

And Was Arrested as a Consequence—Fine is From \$100 to \$500 or Imprisonment 90 Days

The Transcript says: "S. A. Walker, of Omaha, who has been working in Little Falls for several weeks in the interests of a magazine company, was arrested at Brainerd Sunday night for jumping a board bill at the West hotel in this city. The manager at the West became suspicious Friday because he had removed his baggage from the hotel and took a description of him. It was found Sunday morning that he was gone, leaving a balance of \$22 due the hotel, and as the Brainerd train was the only one on which he could have left, Chief of Police Ganonn telephoned to Brainerd with the result that the man was arrested Sunday night. Sheriff Armstrong went to Brainerd to bring the prisoner to this city for trial. The punishment for defrauding a hotel keeper is a fine of \$100 to \$500 or 90 days' imprisonment."

## NEXT MEETING JANUARY 23

State Highway Commission Will Receive Road Petitions on That Date for Roads

### BUILT UNDER THE ELWELL LAW

Roads Passed on in January May be Under Construction the Coming Summer

The next meeting of the highway commission will be held on Tuesday, January 23d, at 11 o'clock A. M.

This is a meeting that is held expressly for the purpose of receiving petitions and data for the proposed roads through the northern part of the state to be built under the so-called Elwell law.

Strenuous efforts are being made by many of the northern counties to get their petitions and resolutions ready for presentation at this meeting.

It is expected that if the roads are passed on by the highway commission at their January meeting, that immediate action will be taken and many of them will be in course of construction the coming summer.

Counties who have not passed the necessary resolutions, should take action by special meeting if possible, so as to get their petitions and data in the hands of the commission at this meeting.

### AN IMPRESSIVE SERVICE

Rev. M. L. Hostager Preaches on "Lost Souls" Tonight at Baptist Church

An interested audience listened with rapt attention last evening to the Rev. W. J. Lowrie as he discoursed on, "The Great Obligation" at the First Baptist church. It was a most interesting and helpful sermon and so varied that one could not help but be spiritually benefited therefrom, and the large audience left the church much inspired.

The song service at the commencement of the meeting was very inspiring, the praise service, which was conducted by the Rev. Geo. Phil Sheridan, was quiet and spiritual. An excellent duet was sung by Professor Ward Cristy and Mrs. G. A. Beale, both being in fine voice and richly blending the truth of the song.

The Rev. M. L. Hostager, pastor of the Seventh Street Norwegian Lutheran church, will be the preacher this evening, and is announced to preach on "Why Souls Are Lost" and the fearlessness of the preacher in his pulpit ministrations evinces that the audience will receive the truth at his hands at tonight's meeting.

The special music for this evening will be as follows: Duet by Rev. M. L. Hostager and Miss Anna Michelson and a solo by Mrs. E. L. Ludwig.

The service will commence at 7:45 and the place of meeting the First Baptist church.

### MATERIAL INCREASE IN RATES

Readjustment of Rates Made Necessary by the New Uniform Law Regulating Fraternities

A Chicago telegram says much interest is being taken in the special meeting of the head camp of the Modern Woodmen of America which will begin in the Globe theatre in Chicago Jan. 23, to consider the readjustment of rates made necessary by the new uniform law for the regulation of fraternities.

The changes, which will involve a material increase in rates will affect nearly 1,200,000 members, with the largest membership in Illinois and adjacent states. As the largest of the fraternal the action of the Woodmen will influence the decision of many other fraternals, which are considering rate increases.

### CONFIRMED PROOF

Resident of Brainerd Cannot Doubt What Has Been Twice Proved

In gratitude for complete relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Doan's Kidney Pills. Residents of Brainerd who so testified years ago, now say their cures were permanent. This testimony doubly proves the worth of Doan's Kidney Pills to Brainerd kidney sufferers.

Mrs. Alfred Towers, 616 First Ave., Brainerd, Minn., says: "Our experience with Doan's Kidney Pills has been very satisfactory. Six years ago we first used this remedy and at that time it did such good work that we publicly endorsed it. Since then we have taken Doan's Kidney Pills when suffering from backache and other symptoms of kidney complaint and we have never failed to receive relief. Our former statement still holds good."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, sole agents for the United States. Remember the name—Doan's—and take no other.

## GAINED STEADILY FROM THE START

"When baby was three weeks old we were compelled to take him from the breast. We vainly tried several infant foods, but he kept losing steadily until he was nothing but skin and bones and cried continually. The doctor put him on Mellin's Food, and he gained steadily from the start. He is now eleven months old, weighs twenty-two pounds, is a plump, gleeful child. He is now just beginning to walk, has ten teeth, sleeps well, and has gone through this dreadful hot weather without the slightest ailment."

### First American Peasage.

It is recorded in a history of the United States that an Indian chief named Mante, after baptism, was made a peer, receiving the rank of baron and assuming the title of Lord of Roanoke, so far back as the year 1587. Somewhat later, in 1600, the title of Lord Delaware was granted by James I. to the new governor of Virginia. Later still, in 1623, Charles I., among his coronation honors, conferred the title of Viscount Canada upon Sir William Alexander.

### A Beggar's Luggage.

A woman who described herself as "a poor lone Irish widow woman," arrested for begging at Wells, England, had the following articles distributed about her person: Tea, sugar, fresh cut beefsteak, piece of bacon, two bloaters, bread and cheese, four luns, bag of biscuits, cooked fagot, two apples, onions, two clay pipes, to bacco, cigarettes and snuff.

### A LIBERAL OFFER.

We Guarantee to Relieve Dyspepsia. If We Fail the Medicine Costs Nothing.

To unquestionably prove to the people that indigestion and dyspepsia can be permanently relieved and that Rexall Dyspepsia Tablets will bring about this result, we will furnish the medicine absolutely free if it fails to give satisfaction to any one using it.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth-Subnitrate and Pepsin have been combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia.

The Pepsin used in Rexall Dyspepsia Tablets is carefully prepared so as to develop its greatest efficiency. Pepsin supplies to the digestive apparatus one of the most important elements of the digestive fluid. Without it the digestion and assimilation of food are impossible.

The Carminatives possess properties which aid in relieving the disturbances and pain caused by undigested food. This combination of these ingredients makes a remedy invaluable for the complete relief of indigestion and dyspepsia.

We are so certain of this that we urge you to try Rexall Dyspepsia Tablets on our own personal guarantee. Three boxes, 25 cents, 50 cents, and \$1.00. Remember, you can obtain Rexall Remedies only at our store - The Rexall Store.

## CHINAMEN ARE TOUGH.

They Can Live Under Conditions That Would Kill a White Man.

Peculiar power to resist disease is a characteristic of the Chinese, according to Professor E. A. Ross. For instance, out of ten children born in western homes three, normally the weakest three, will fail to grow up. Out of ten children born in China about eight are doomed to die in infancy. The difference is due to the hardships that infant life meets with among the Chinese, and with such rigorous selection there results a stock displaying a peculiar hardness. Living in the super-saturated, man stifled land, profoundly ignorant of the principles of hygiene, the masses have developed an immunity to noxious microbes which excites the wonder and envy of the foreigner.

"They are not affected by a mosquito bite that will raise a large lump on the lately come foreigner," says Professor Ross. "They can use contaminated water from canals without incurring dysentery. There is very little typhoid and what there is so attenuated it was long doubted to be typhoid. At physicians agree that among the Chinese smallpox is a mild disease. The chief of the army medical staff pointed out that during the autumn maneuvers, the soldiers sleep on damp ground with a little straw under them without any ill effects.

"Coolies, after two hours of burden bearing at a dog trot, will shovel themselves full of hot rice with scarcely any mastication and hurry on for another two hours. A white man would writhe with indigestion. The Chinese seem able to sleep in any position. I have seen them sleeping on piles of bricks or stones or poles, with a block or a brick for a pillow and with the hot sun shining full into the face. They stand a cramped position longer than we can and can keep on longer at monotonous toil unrelieved by change or break."—Chicago News.

## MATHEMATICAL SIGNS.

Process by Which These Familiar Characters Were Evolved.

The sign of addition is derived from the initial letter of the word "plus." In making the capital letter it was made more and more carelessly until the top part of the "p" was placed near the center; hence the plus sign was finally reached.

The sign of subtraction was derived from the word "minus." The word was first contracted into mus, with a horizontal line above to indicate the contraction, which was a printer's freak that may be found in almost any book bearing a date earlier than the beginning of the eighteenth century. After the lapse of a long period of time the letters were omitted altogether, leaving only the short line so well known to all.

The multiplication sign was obtained by changing the plus sign into a character resembling the letter x. This was done simply because multiplication is but a shorter form of addition. Division was formerly indicated by placing the dividend above a horizontal line and the divisor below. In order to save space in printing the dividend was placed to the left and the divisor to the right, with a simple dot in place of each.

The radical sign was derived from the initial letter of the word "radix." The sign of equality is said to have first been used in the year 1557 by a sharp mathematician, who adopted it as a substitute for the words "equal to."

## EQUITABLE HOME WAS A MARVEL

Burned Building and Site Valued  
at \$20,000,000.

## COVERED ACRE OF GROUND.

With Splendid Arcade of Granite, Onyx and Marble It Was One of New York's Wonders—Late E. H. Harriman Had Offices in Building.

The Equitable Life Assurance society's building in New York, which was recently destroyed by fire, was valued at \$17,000,000 to \$20,000,000. Covering an acre of ground and containing a beautiful arcade of polished granite, onyx and Italian marble, it occupied an entire block, surrounded by Broadway, Pine, Cedar and Nassau streets, and for decades, until the erection of the great skyscrapers, was one of the most imposing buildings in the city.

Built of granite and elaborately decorated, it was pointed out for nearly half a century as one of the sights of New York, significant of the solidity of the city's financial institutions, and in later years its ornamented towers have given a trace of structural beauty to a section of Broadway where square, towering skyscrapers are forcing out older and more beautiful buildings.

It contained the rooms of the Lawyers' club and had a law library of 13,000 volumes, together with scores of valuable paintings.

### Held Harriman Offices.

Financiers of national reputation had offices in the Equitable building for years. From offices there E. H. Harriman for years directed the affairs of his system of railroads.

Erected in 1893, the original building covered only one-half of the Broadway front of the block, adjoining the Pine street corner, but it was extended and remodelled in 1887 so as to cover the entire block.

It was then regarded as one of the city's structural marvels and contained 600 offices. A part of the old building had been torn down and extensive additions made, producing a structure eleven stories high, with approximately 160 feet frontage on Broadway and 330 feet depth, running through to Nassau street.

Its most notable feature after remodeling was the splendid arcade, which was opened on May 3, 1887. This composed a court 100 feet long, 44 feet wide and 30 feet high, its walls of highly polished granite, with rows of double pillars of the same material, extending along its sides. The capitals of these pillars were of Algerian onyx, and along their tops were layers of Knoxville and Italian marble.

### Had Tessellated Floor.

A tessellated floor of pink and white marble added to its beauty. At its eastern end, in the arch of the dome, was a mosaic panel, said to be one of the finest of its kind in the country. It consisted of the draped figure of a woman, at each side of which was the figure of a warrior and beneath them the motto of the society, "Vigilance and Strength—Defend the Defenseless."

Plans were made in 1908 to tear down the building and erect in its place a sixty-two story structure which was to be 900 feet in height and to cost \$15,000,000, consisting of a main building 480 feet high, of thirty-four stories, and a tower of twenty-eight stories, with a cupola 420 feet high. These plans, however, were abandoned.

The great war against the insurance companies which resulted in a legislative investigation conducted by Charles E. Hughes and in extensive reforms of the insurance business throughout the country had its inception in a struggle between James Hazen Hyde and James W. Alexander, its chief official, for the stock of the society.

As a result of this struggle Hyde was forced out of the ownership of the society and sold it to Thomas F. Ryan. The late E. H. Harriman testified at the insurance investigation that he attempted to induce Mr. Ryan to sell him a part interest in the society, but Mr. Ryan declined, and Mr. Harriman, when asked if he had squared the account with Mr. Ryan for his refusal, answered, "Not yet."

After retaining its ownership for several years Mr. Ryan sold control of the society to J. P. Morgan in 1909, and Mr. Morgan is now believed to be its owner.

### BIG KRUPP EXHIBIT.

Miniature Coast Defense Works For Panama Exposition.

The Krupp firm will exhibit at the Panama canal exposition at San Francisco in 1915 a miniature coast defense works. The exhibit will be erected at Golden Gate about the time of the opening of the canal. The Krupps intend to make a great display of their various inventions and machines, especially their war machines.

They also expect to supply the material for the huge tower at San Francisco, which is to be a few feet higher than the Eiffel tower.

The Zeppelin Airship company will also be represented at the exposition with various air craft and apparatus.

## FOUR RULES OF SELLING.

They Went With the Job the Gritty Salesman Landed.

Until some ten years ago it was an axiom in the big packing house circles of Chicago that a salesman should be guided by four rules as laid down by one of the famous heads of that industry. He was noted for his brusqueness and also a democratic nature that scorned the usual hedge of clerks that stands between a big man and his callers.

A bright manly looking chap entered the office one day when he was very busy.

"Good morning," he began politely.

The packer gave him a lusty glance. "Well, what the blankety-blank-blank do you want?" he growled.

"I want civil treatment, and I want it blankety-blank-blank quick," came the sharp answer.

"Oh!" The packer looked up in surprise. Modulating his voice a trifle, he asked, "What can I do for you?" "I want a job as a salesman. I have worked as a butcher, I have worked in the packing houses, and I have sold smaller lines to the meat trade. I have references to prove that I deliver the goods, and I have them with me. I want to get into a bigger field, and I am here to make good. Have you got a job open?"

"If we haven't we'll make an opening for you. Report to the sales manager Monday morning."

As the young man started to leave the office the brusque old packer called him back.

"Do you know why you got that job?" he asked.

"No, sir."

"Well, you have the three essentials that make a good salesman. I'll point them out to you, so you'll remember 'em. First, you don't think any man is better than you are, and you have the nerve to stick to it; second, you know the good points of what you had to sell; third, you stated them in the fewest possible words. I'll add a fourth—get out before I change my mind."—Business.

## THE POLE STAR.

Some of the Wonders of This Great Beacon of the North.

Most people, if they know nothing else of astronomy, at any rate know the pole star, the one star which seems to keep its place in the heavens without movement of any kind. There are a great many, however, who do not know what a wonderful thing it is. In the first place, it can be seen when looked at through a good telescope to be two stars and not one. There is one fairly bright one, of what is known as the second magnitude, and another of the ninth magnitude close to it.

But that is not all. The brighter of the two is really three stars revolving round one another, or rather round their common center of gravity, like three children playing "ring a ring o' roses." This secret is revealed to us by what is perhaps the most astonishing of all scientific instruments, the spectroscopic. It not only tells us what the stars are made of, but whether they are moving toward us or away from us.

When you stand facing the star you are always facing north. The reason that it does not appear to move as the others do is because it is nearly in line with the axis of the earth. Its distance from us is enormous. This can be judged from the fact that although the earth in its journey round the sun is today about 100,000,000 miles from where it was six months ago, that makes no appreciable difference to its distance from the pole star. It must therefore be many times 100,000,000 miles away.

### Conscience Stricken.

The little page boy was not extra fond of his job. He imagined that he had too much work to do.

One day an old lady came to see the mistress. When she was going away she said to Buttons, "Well, my little lad, what do you do here?" "I do a butler out of a job, mum," was the reply.—London Tit-Bits.

### Enlightening a Poet.

The English poet Mr. Powys told this anecdote, in which he claimed to have been the party of the second part. He said that he was talking to an old country woman on the occasion of the queen's jubilee in 1867. "What do you understand by the word 'jubilee'?" he asked her.

"Well," answered the old dame, "if you've been married fifty years and the man's alive it's a golden wedding. If he's dead it's a jubilee."

### Ancient Cancer Cure.

An ancient oriental cure for cancer was to apply a live toad to the affected part. A well authenticated case of this form of treatment was that of the wife of a merchant of Smyrna. A live toad was strapped tightly over the diseased part, and, it was said, the woman was completely cured within a short time. It was a sacrifice upon the part of the toad, however, as it died after it had been on duty twenty-four hours.

### The Best He Could Do.

"Mr. Addem," said a tightwad merchant to his sad faced bookkeeper, "I wish you would try to look a little more cheerful."

"I think," replied the bookkeeper, swallowing a big lump, "that for 30 shillings a week I'm awfully jolly."—London Mail.

### Exciting.

"Anything going on this evening?" "Yes; there's to be a performance at the Athletic gardens. A fellow will undertake to subdue an automobile that has a record of having killed six men. He's to do it in one hour or forfeit \$1,000."—Chicago Tribune.

### With an Incumbence.

"No," said Mr. Cumrox, "I don't in the least disapprove of my daughter's marrying a title."

"But you seem dissatisfied." "I am. What I object to is the fellow that goes with it."—Washington Star.

Beware of bad beginnings. He who does not take the first wrong step will never take the second.
